

Serving Marine & Offshore Industries

Suppliers List & Services 2016

Big Enough to Deliver, Small Enough to Care:

Transvac Systems is a leading provider of turn-key solutions to the Military, Commercial and Offshore markets, specialising in the Design, Supply and Legacy Support of Environmental Systems and Associated Equipment

Our Aim:

Transvac is committed towards providing quality goods and services that fully satisfy both the customer and regulatory requirements. We endeavour to maintain high standards in all business activities to ensure that the company continues to be regarded by industry as a customer focused leading firm in all areas of expertise.

Turn Key Services:

Transvac can provide strong "Turn-Key" management solutions for the supply of specialist products & services drawing upon "self-sufficient" "in-house" resources & multi-skilled personnel to provide Total System Designs, Capital Equipment, Spares Parts and Through-Life Legacy Support on a national and global scale. Facilities include:

- Comprehensive CAD facilities including Solidworks 3D Modelling.
- In-House fabrication facilities to support bespoke design.
- Fully qualified OPITO and CONDO engineers to provide onsite technical support and commissioning services.
- PLC Programming and Control Panel Design.

Survey and Repair Services:

Transvac's "In-House" test facilities enable comprehensive inspections, tests and overhauls to be conducted on the following equipment:

- Evac and Electrolux type control panels.
- Herborner Centrifugal Pumps.
- Egger Turo Centrifugal Pumps.
- Vogelsang Rotary Lobe Pumps
- Sihi type Liquid Ring Pumps.
- Orpu Radial Blowers.

Environmental Systems Supplies:

Transvac Systems are authorised distributors for the following leading manufacturers of marine environmental equipment:

- Evac Vacuum Sanitary Systems comprising vacuum collection plants, sewage treatment plants, vacuum toilets and vacuum interface valves.
- Evac Dry Waste Systems comprising balers, presses, shredders, food waste vacuum transfer stations, glass crushers and incinerators.
- Triton-Evac fresh water treatment solutions consist of seawater desalination systems using reverse osmosis (RO), and potable water treatment systems using mineralisation, disinfection.
- Hyde Marine Ballast Water Treatment Plants
